# Ashish B Kallada

Software Developer @BeyondScale  
Ernakulam, Kerala, India

## Summary

As a passionate and driven developer, I thrive on creating dynamic and efficient web applications that deliver seamless user experiences. With a strong foundation in MongoDB, Express, React, and Node.js (MERN stack), as well as expertise in microservices architecture, gRPC, Kafka, Docker, Kubernetes, React Native, PHP, MySQL, PostgreSQL, and data structures and algorithms (DSA), I am dedicated to solving complex problems and continuously expanding my skill set.

My journey in web development has been fueled by a love for coding, a commitment to innovation, and a strong understanding of scalable system design. Whether building robust back-end systems or crafting intuitive front-end interfaces, I embrace each challenge with enthusiasm and a growth mindset.

Let's connect and explore how we can collaborate to build the next generation of web applications!
